E-Participation in Southern Europe and the Balkans Euripidis Loukis,Ann Macintosh,Yannis Charalabidis,2013-09-13 The rapid development and the growing penetration of information and communication technologies (ICT) provide tremendous opportunities for a wide and cost effective application of the ideas of participative democracy and public participation in government decision and policy making. ICT can drive dramatic transformations in the quantity and quality of communication and interaction of government organizations with citizens, revitalizing and strengthening the modern representative democracy which currently faces big problems of reduced citizens' trust and involvement. This book deals with the application of these e-participation ideas in the special and 'difficult', and at the same time highly interesting, national context of Southern Europe and the Balkans. The first chapter provides an overview of e-participation concepts and practices whilst the following chapters analyse pilot applications of e-participation concepts in eight different Southern European and Balkan countries (Spain, France, Italy, Slovenia, Serbia, Albania, Greece, Yugoslav Republic of Macedonia (FYROM)). They cover both the 'classical' e-participation paradigm, based on official e-participation spaces created, operated and controlled by government organizations as well as emerging new e-participation paradigms including e-participation based on web 2.0 social media, and 'scientific-level' e-participation, based on opening government data to the scientific community. This book was originally published as a special issue of the Journal of Balkan and Near Eastern Studies.

Sisters Crossing Boundaries Katharina Stornig,2013-10-02 The last third of the 19th century witnessed a considerable increase in the active participation of women in the various Christian missions. Katharina Stornig focusses onthe Catholic case, and particularly explores the activities and experiences of German missionary nuns, the so-called Servants of the Holy Spirit,in colonial Togo and New Guinea in the late 19th and first half of the 20th centuries. Introducing the nuns' ambiguous roles as travelers, evangelists, believers, domestic workers, farmers, teachers, and nurses, Stornig highlights the ways in which these women shaped and were shaped by the missionary encounter and how they affected colonial societies more generally. Privileging the sources produced by nuns (i.e. letters, chronicles and reports) and emphasizing their activities, Sisters Crossing Boundaries profoundly challenges the frequent depiction of women and particularly nuns as the largely

passive observers of the missionizing and colonizing activities of men. Stornig does not stop at adding women to the existing historical narrative of mission in Togo and New Guinea, but presents the hopes and strategies that German nuns related to the imagination and practice of empire. She also discusses the effects of boundary-crossing, both real and imagined, in the context of religion, gender and race.

Administração Em Jogos Online Rpg / Mmorpg Felipe Marcelo Gonzaga De Carvalho,2009-03-07 Administração e jogos RPG tem alguma coisa a ver? Um estudante de graduação em Administração (Geral, de Empresas ou Pública) ou até mesmo um bacharel em Administração usaria o que aprendeu em sua graduação em um jogo? A resposta é: sim! Mas qual a referência para isso? Jogo é um jogo! De fato, muitos dirão que jogo é um jogo, mas é muito mais do que uma simples diversão ou passatempo. Mas o que faz um jogo ser muito mais do que uma diversão/entretenimento? O ponto de vista do jogador. Conheci um jogo MMORPG e, por mais que não me imaginava passando meu tempo em um jogo online, fui tomando gosto a ponto de querer aprender mais e mais não somente pelo jogo em si, mas pelo que ele oferece: contato contínuo com outros jogadores de diversos lugares Brasil afora, sim, acreditem, a Internet tem esse lado de trazer mais próximo das pessoas outras pessoas que sequer imaginariam conhecer e aprender com elas! Enquanto administrador, minha curiosidade

em ver muito do que aprendi em classe sendo aplicado a um mero jogo, um passatempo e como isso tem sido importante não somente para mim, mas muitas outras pessoas usam o jogo online como fonte de seu progresso pessoal e profissional, até mesmo um bom exemplo disso foi o chamado de um jovem que entre uma de suas entrevistas profissionais, comentou que foi GM de uma Guild em um jogo RPG Online por mais de oito meses, o que foi de grande valia para ele, afinal, foi contratado. Sendo assim, o que pensar de um simples jogo online? Apenas um entretenimento ou também um instrumento de trabalho? Essas e outras dúvidas somente poderão ser respondidas se há o interesse do indivíduo em conhecer o jogo e o universo que ele está. O que posso dizer é, minhas curiosidades me levaram a conhecer um mundo diferente, embora virtual, mas uma nova visão para meus conhecimentos técnicos, pois pude acompanhar mudanças em jovens, que começaram a jogar e nem imaginariam que algum tempo depois, estariam comandando mais de cem pessoas em um mesmo objetivo sem mesmo nunca terem visto ou terem contato direto, ao vivo com tais pessoas. Isso lhe parece incomum? Pode até pensar que seja, mas num mundo de hoje, a interatividade é tamanha que não podemos deixar de lado, ver pessoas atrás de seus computadores interagindo com outras num jogo e aprimorando seus conhecimentos e ganhando amigos e seguidores pelo simples fato de ter um personagem em um jogo, parece absurdo, mas é a realidade hoje em dia. E esse foi o ponto a ser tratado nesse livro, e o que podemos aprender com um simples jogo online quanto a administrar uma organização.
