

Malaysia Has One Of The Highest Ratios Of International To Local Students

David Martin Jones, M. L. R. Smith

Higher Education - Reflections From the Field - Volume 3, 2023-11-02 COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections on 'Changing Education', 'Education in the Pandemic', 'Sustaining University Education', and 'Embracing the Future in a Global World'. It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.

Internationalization and the Academic Profession Alper Çalıkoğlu, Glen A. Jones, Yangson Kim, 2023-04-04 This book makes a major contribution to the scholarship on internationalization in higher education by focusing on the perceptions and experiences of the academic profession in a comparative perspective. Drawing from data collected by the Academic Professions in the Knowledge-based Society (APIKS) project, the contributors to this volume are uniquely positioned to explore the impact and implications of internationalization on those who play the central role in the teaching and research functions of higher education: the professoriate. The core chapters address issues such as the roles of gender, discipline, and career stage in the international activities of academics in different countries, national differences in the perceptions and

behaviors of university faculty in the internationalization of teaching, and of research within higher education systems on the perceptions and behaviors of academics. Each of these chapters draw on the existing research literature in these thematic areas as a foundation for the systematic analysis of the international APIKS dataset to illuminate and discuss key findings. This book offers a highly original and unique contribution to the study of internationalization in higher education because its editors and contributors, as participants in the APIKS project, have been able to raise and address key research questions using comparative international empirical data on the academic profession that has never before been available. Given the tremendous importance of internationalization and the global dimension of higher education, this volume offers unique, distinctive insights on the implications of internationalization for the academic profession and the very different ways in which these transformations are understood by academics both within and between systems.

Corporate Management Ecosystem in Emerging Economies Fred A. Yamoah,Adnan ul Haque,2023-12-20 Emerging economies, as actively changing societies, invoke questions about the future direction for national and global development as well as equitable economic growth. In this book, the Editors argue that understanding the corporate management ecosystem of emerging economies is key to business success in the globalized economy. Discussing the key attributes of emerging economies (for example, population dynamics, labour and production patterns, employment, and foreign direct investment) and the connection with governance, marketing, innovation management, and supply chain research and practice, the book highlights the distinctiveness of corporate management dynamics in comparison with existing knowledge that is dominated by developed country frameworks. The book offers twenty-one case studies that cover examples of corporate management research and practice in both local and international companies, making this a valuable resource for students, academics and industry stakeholders.

International Education Daniel Ness,Chia-Ling Lin,2015-03-17 This encyclopedia is the most current and exhaustive reference available on international education. It provides thorough, up-to-date coverage of key topics, concepts, and issues, as well as in-depth studies of approximately 180 national educational systems throughout the world. Articles examine education broadly and at all levels--from primary grades through higher education, formal to informal education, country studies to global organizations.

Languages and Identities in a Transitional Japan Ikuko Nakane,Emi Otsuji,William S. Armour,2015-08-20 This book explores the transition from the era of internationalization into the era of globalization of Japan by focusing on language and identity as its central themes. By taking an interdisciplinary approach covering education, cultural studies, linguistics and policy-making, the chapters in this book raise certain questions of what constitutes contemporary Japanese culture, Japanese identity and multilingualism and what they mean to local people, including those who do not reside in Japan but are engaged with Japan in some way within the global community. Topics include the role of technology in the spread of Japanese

language and culture, hybrid language use in an urban context, the Japanese language as a lingua franca in China, and the identity construction of heritage Japanese language speakers in Australia. The authors do not limit themselves to examining only the Japanese language or the Japanese national/cultural identity, but also explore multilingual practices and multiple/fluid identities in a transitional Japan. Overall, the book responds to the basic need for better accounts of language and identity of Japan, particularly in the context of increased migration and mobility.

International Higher Education Volume 1 Philip Altbach, 2014-06-23 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields. Comprehensive and in-depth coverage of a limited number of countries, regions and themes is provided. The essays not only feature statistical and factual information but significant interpretation of those facts and figures. The chapters on themes and topics are both analytic and interpretative and deal with the most important topics relevant to higher education everywhere. More than a compendium of facts and figures the encyclopedia is a comprehensive overview of a growing field of research and analysis.

The Rise of Quality Assurance in Asian Higher Education Mahsood Shah, Quyen T.N. Do, 2017-05-25 The Rise of Quality Assurance in Asian Higher Education provides information on the well researched quality assurance frameworks, processes, standards, and internal and external monitoring that have taken place around the globe. However, in Asia, where higher education has witnessed rapid growth, and is also contributing significantly to international education which is benefited by many developed countries, this data has not been readily available. In recent years, governments in Asia have made significant investment with an aim of creating education hubs to ensure that higher education is internationally competitive. This book examines the developments in higher education quality assurance in eleven Asian countries, providing systematic insights into national quality assurance arrangements and also examining the different approaches governments in Asia have implemented based on social and economic contexts. Includes chapters from eleven countries that examine quality assurance arrangements Explores untold case studies of countries, such as Mongolia, Uzbekistan, Kazakhstan, Cambodia, Indonesia, Thailand, Korea, India, and others Examines higher education context, quality assurance arrangements, effectiveness, challenges, and international quality assurance in Asia Offers contributions from leading scholars and practitioners who are working in higher education in Asia Provides engagement for research students

International Migration in Southeast Asia Aris Ananta, Evi Nurvidya Arifin, 2004 Includes statistics.

Higher Education in the ASEAN Region Glenda Crosling, Graeme Atherton, Siti Norbaya Azizan, 2024-04-19 Higher Education in the ASEAN Region: Shaping the Future presents views on the topic from various regional writers. It is built on the idea of progress in higher education, emphasising the ongoing evolution and transformation of the sector. Framed by the dynamic settings of both ASEAN and higher education, the perspectives offered in the book cluster under the themes of higher education sustainability, learning and teaching approaches, post-graduation employment, access and equity, and

curriculum development.

The Oxford Handbook of the Economics of the Pacific Rim Inderjit Kaur, Nirvikar Singh, 2014 A survey of the economy of the Pacific Rim region--

ASEAN and East Asian International Relations David Martin Jones, M. L. R. Smith, 2006 Academic and accepted orthodoxy maintains that Southeast Asia, and Asia generally, is evolving into a distinctive East Asian regional order. This book questions this claim and reveals instead uncertainty and incoherence at the heart of ASEAN, the region's foremost institution. The authors provide a systematic critique of ASEAN's evolution and institutional development, as well as a unified understanding of the international relations and political economy of ASEAN and the Asia Pacific. It is the first study to provide a sceptical analysis of international relations orthodoxies regarding regionalization and institutionalism, and is based on wide-ranging and rigorous research. Students of international relations, the Asia Pacific, Southeast Asia, regional studies, international history and security and defence studies will find this book of great interest, as will scholars, policy makers and economic forecasters with an interest in long-term Asia Pacific trends.

Charting a Sustainable Future of ASEAN in Business and Social Sciences Naginder Kaur, Mahyudin Ahmad, 2020-07-23 This volume showcases selected conference papers addressing the sustainable future of ASEAN from the perspectives of business and social science disciplines. In addressing the 17 Sustainable Development Goals (SDGs) envisioned by the United Nations in the domains of environment, health and well-being, posing potential means of reducing inequalities globally, the authors target specific issues and challenges confronting the fast-growing region of ASEAN and present suggestions for co-operation and commitment from governments, non-governmental organisations (NGOs) and society at large, in line with the ASEAN Vision 2020. Papers are selected from the 3rd International Conference on the Future of ASEAN (ICoFA) 2019, organised by Universiti Teknologi MARA in Malaysia, whose conference theme "Charting the Sustainable Future of ASEAN" enables intellectual discourse on sustainability issues from business and the social sciences, as well as science and technology. The selection of papers is published in two volumes, comprising scholarly and practical insights into sustainability in ASEAN. This first volume of papers from business and social science scholars will be of interest to researchers and policymakers interested in sustainability developments in the ASEAN region.

Routledge Library Editions: Education Mini-Set G Higher & Adult Education 11 vol set Various, 2021-07-14 Mini-set G: Higher and Adult Education re-issues 11 volumes originally published between 1974 and 1992. They discuss and analyze adult education from both theoretical and practical standpoints and look at the challenges facing adult education during the 1970s and 80s as well as examining the history of higher & adult education in the UK. The mini-set includes one volume which although previously available with another publisher (and out of print for some years) is now available for the first time from Routledge.

The Routledge Companion to International Management Education Denise Tsang, Hamid H. Kazeroony, Guy Ellis, 2013-06-19 Crises and scandals in the world of international management have brought a new spotlight onto how the subject is taught, studied and understood. There has been a plethora of literature on international management, but a lack of focus on how international management education (IME) can be shaped to respond to existing and future global business challenges. The Routledge Companion to International Management Education gathers together contributors from academia, industry and university administration involved in IME, to: introduce the domain of IME; describe the emerging state in new geographical areas; discuss the major issues and debates revolving around IME; explore the linkage of technology and international management, and shed light on the future of IME. The diverse background of the contributors provides a global perspective that challenges the dominant Anglo-American view, with up-to-date specific insights originating from their indigenous view points, which has often been neglected and inadequately covered. The volume answers important questions, such as: Do we need a vision in IME? What is the current state of IME? How has IME grown in emerging market segments? What roles does technology play in its recent development? The volume provides thought-provoking reading for educators, administrators, policy makers, human resources professionals and researchers. It will also give future international management students a glimpse of IME from a global inside-out perspective.

Journal of International Students, 2018 Vol. 8(2) Krishna Bista, Chris Glass, 2019-10-01 The Journal of International Students (JIS), an academic, interdisciplinary, and peer-reviewed publication (Print ISSN 2162-3104 & Online ISSN 2166-3750), publishes scholarly peer reviewed articles on international students in tertiary education, secondary education, and other educational settings that make significant contributions to research, policy, and practice in the internationalization of higher education.

Interconnection and the Internet Gregory L. Rosston, David Waterman, 2013-11-26 The Telecommunications Act of 1996 and the Federal Communications Commission's Local Competition Order are just two examples of the continuing monumental and far-reaching changes occurring throughout the telecommunications industry. At the 1996 Telecommunications Policy Research Conference (TPRC) -- an annual forum for dialogue among scholars and the policymaking community on a wide range of telecommunications issues -- leading industry and academic researchers presented results of their research and insights in key areas of activity, including: *interconnection and competition; *Internet growth and commerce; *Internet regulation and control; and *the political economy of telecommunications regulation. The best of the 1996 TPRC papers are included here, representing the forefront of research in the telecommunications industry. The third in an annual LEA series of volumes based on this important conference, this collection reflects the rapid economic, technological, and social development of telecommunications. It also reflects the current state of research thinking on this issue and provides a foundation for further telecommunications policy analysis.

International Higher Education Volume 1 Philip Altbach,2014-06-23 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields. Comprehensive and in-depth coverage of a limited number of countries, regions and themes is provided. The chapters on themes and topics are both analytic and interpretative and deal with the most important topics relevant to higher education everywhere. More than a compendium of facts and figures the encyclopedia is a comprehensive overview of a growing field of research and analysis.

International Political Economy Raymond C. Miller,2018-03-13 The second edition of International Political Economy continues to be the perfect short introduction to the fundamental theories and issues of international political economy (IPE). Written in a concise, accessible style by an experienced teacher and scholar, it combines theoretical perspectives, real-world examples, and comparative policy analysis. The text offers students an in-depth, balanced understanding of the contrasting core perspectives in IPE, allowing them to critically evaluate and independently analyze major political-economic events. Having emerged from both the classical and modern schools of political economy, the book's unique structure is organized around the threefold world view classification of IPE that the author labels as free-market, institutionalist, and Marxist. The book: Compares, contrasts, and critiques the different approaches in the context of major global issues such as financial crises, free vs. fair trade, ecological degradation, growing inequality, gender, globalization, and multinational corporations; Explains key economic concepts such as financial markets, banking systems, monetary policy, foreign exchange, Keynesian economics, fiscal policy, comparative advantage, value theory, money, role of corporations, and ecological economics as well as their relationship to political concepts such as international regimes and governance; Contains 30 original figures and tables, review questions at the end of each chapter, and a detailed glossary to enhance student learning; Responds to the call from eminent IPE specialists Robert Keohane and Benjamin Cohen for textbooks that take a pluralistic approach. This thoroughly updated second edition is essential reading for students of international political economy, economics, political science and global governance.

International Commerce ,1970

Routledge International Handbook of Medical Education Khalid A. Bin Abdulrahman,Stewart Mennin,Ronald Harden,Catherine Kennedy,2015-07-16 Twenty-first century medical schools, postgraduate bodies and other medical education organisations are responding to rapid advances in medicine, healthcare delivery, educational approaches and technology, and globalisation. Differences in geography, culture, history and resources demand diversity amongst educational systems. This important volume is designed to help medical educators working in today's challenging circumstances by providing an overview of best practices and research in medical education. Routledge International

Handbook of Medical Education provides a practical guide to and theoretical support for the major education challenges facing teachers, managers and policy makers around the world. Highlighting how resources can be used to provide effective and sustainable responses to the key issues facing medical educators, the handbook offers a truly international perspective of best practices with contributing editors and authors from around the globe. Routledge International Handbook of Medical Education recognises the need to maintain established best practices when appropriate and to respond adaptively to cultural differences and local conditions facing medical education. This topical book deals with the key challenges facing medical education by the different stakeholders including: - selection and admission of students to study medicine; - competences necessary for graduates to enable them to recognize and address emerging health issues and policies; - teaching and learning processes that are necessary to meet tomorrow's challenges; - approaches to assessment, including the integration of assessment and learning; - design and management of complex curricula that provide educational strategies to meet regional and global problems. A unique, diverse and illustrative resource of best practices in medical education, the handbook is stimulating reading for all educators of present and future health care professionals.
