Handbook of Research on Race, Gender, and the Fight for Equality Prescott, Julie, 2016-03-31 Diversity in the workforce can be attributed to both a popular, cultural shift and legislative intervention. Despite these forces, discrimination endures in all aspects of Western society from education to employment. Unequal pay and opportunities for promotion are symptoms of a systematic discrimination of individuals based on race and gender. The Handbook of Research on Race, Gender, and the Fight for Equality provides a critical look at race, gender, and modern day discrimination. Focusing on workplace and educational dynamics, the research found within this book addresses equal opportunity and diversity requirements from a myriad of perspectives. This book is an essential reference source for professionals and researchers working in equality as well as managers and those in leadership roles.

Drowning for Jesus Jeff Hoppe,Kathy Hoppe,2020-10-08 While there are many books that address burnout in ministry,

there are few that speak to compassion fatigue. The book is divided into three parts. Part I, *The Beckoning Sea*, explains the perils of ministry, the church as a family system, the difference between burnout and compassion fatigue, and risk factors for ministry leaders. In Part II, *Finding Your Stroke*, the authors offer prevention advice for burnout, compassion fatigue, and managing church systems. Part III, *The Rescue*, discusses the process of recovery beginning with rest and retreat, and the minister's renewed calling. The authors explain how intentionality, building resiliency, and finding connection bring healing. A chapter is dedicated to clergy families. Using the analogy of ocean swimming and the story of Jonah, a reluctant preacher, the authors weave a common theme through the narrative offering education, understanding, and hope while sharing the stories of ministry leaders who have survived the turbulent waters of pastoral caregiving.

Adios, America Ann Coulter,2015-06-01 A New York Times Bestseller! Ann Coulter is back, more fearless than ever. In *Adios, America* she touches the third rail in American politics, attacking the immigration issue head-on and flying in the face of La Raza, the Democrats, a media determined to cover up immigrants' crimes, churches that get paid by the government for their charity, and greedy Republican businessmen and campaign consultants—all of whom are profiting handsomely from mass immigration that's tearing the country apart. Applying her trademark biting humor to the disaster that is U.S. immigration policy, Coulter proves that immigration is the most important issue facing America today.

In the Wake Christina Sharpe,2016-10-21 In this original and trenchant work, Christina Sharpe interrogates literary, visual, cinematic, and quotidian representations of Black life that comprise what she calls the orthography of the wake. Activating multiple registers of wake—the path behind a ship, keeping watch with the dead, coming to consciousness—Sharpe illustrates how Black lives are swept up and animated by the afterlives of slavery, and she delineates what survives despite such insistent violence and negation. Initiating and describing a theory and method of reading the metaphors and materiality of the wake, the ship, the hold, and the weather, Sharpe shows how the sign of the slave ship marks and haunts contemporary Black life in the diaspora and how the specter of the hold produces conditions of containment, regulation, and punishment, but also something in excess of them. In the weather, Sharpe situates anti-Blackness and white supremacy as the total climate that produces premature Black death as normative. Formulating the wake and wake work as sites of artistic production, resistance, consciousness, and possibility for living in diaspora, *In the Wake* offers a way forward.

Theft Is Property! Robert Nichols, 2019-12-20 Drawing on Indigenous peoples' struggles against settler colonialism, Theft Is Property! reconstructs the concept of dispossession as a means of explaining how shifting configurations of law, property, race, and rights have functioned as modes of governance, both historically and in the present. Through close analysis of arguments by Indigenous scholars and activists from the nineteenth century to the present, Robert Nichols argues that dispossession has come to name a unique recursive process whereby systematic theft is the mechanism by which property relations are generated. In so doing, Nichols also brings long-standing debates in anarchist, Black radical, feminist, Marxist, and postcolonial thought into direct conversation with the frequently overlooked intellectual contributions of Indigenous peoples.

David and Goliath Malcolm Gladwell, 2013-10-03 Why do underdogs succeed so much more than we expect? How do the weak outsmart the strong? In David and Goliath Malcolm Gladwell, no.1 bestselling author of The Tipping Point, Blink,

Outliers and What the Dog Saw, takes us on a scintillating and surprising journey through the hidden dynamics that shape the balance of power between the small and the mighty. From the conflicts in Northern Ireland, through the tactics of civil rights leaders and the problem of privilege, Gladwell demonstrates how we misunderstand the true meaning of advantage and disadvantage. When does a traumatic childhood work in someone's favour? How can a disability leave someone better off? And do you really want your child to go to the best school he or she can get into? David and Goliath draws on the stories of remarkable underdogs, history, science, psychology and on Malcolm Gladwell's unparalleled ability to make the connections others miss. It's a brilliant, illuminating book that overturns conventional thinking about power and advantage. 'A global phenomenon... there is, it seems, no subject over which he cannot scatter some magic dust' Observer
