Soldiers First Joe Drape, 2012-09-04 In *Soldiers First*, bestselling author Joe Drape reveals the unique pressures and expectations that make a year of Army football so much more than just a tally of wins and losses. The football team at the U.S. Military Academy is not like other college football teams. At other schools, athletes are catered to and coddled at every turn. At West Point, they carry the same arduous load as their fellow cadets, shouldering an Ivy League-caliber education and year-round military training. After graduation they are not going to the NFL but to danger zones halfway around the world. These young men are not just football players, they are soldiers first. New York Times sportswriter Joe Drape takes us inside the world of Army football, as the Black Knights and their third-year coach, Rich Ellerson, seek to turn around a program that had recently fallen on hard times, with the goal to beat Navy and sing last at the Army-Navy game in December. The 2011 season would prove a true test of the players' mettle and perseverance. Drawing on his extensive and unfettered access to the players and the coaching staff, Drape introduces us to this special group of young men and their achievements on and off the field. Anchoring the narrative and the team are five key players: quarterback Trent Steelman, the most gifted athlete; linebacker Steve Erzinger, who once questioned his place at West Point but has become a true leader; Andrew Rodriguez, the son of a general and the top scholar-athlete; Max Jenkins, the backup quarterback and the second-in-command of the Corps of Cadets; and Larry Dixon, a talented first-year running back. Together with Coach Ellerson, his staff, and West Point's officers and instructors, they and their teammates embrace the demands made on them and learn crucial lessons that will resonate throughout their lives—and ours.

Absolutely American David Lipsky, 2014-12-16 New York Times Bestseller: A “fascinating, funny and tremendously well written” chronicle of daily life at the US Military Academy (Time). In 1998, West Point made an unprecedented offer to Rolling Stone writer David Lipsky: Stay at the Academy as long as you like, go wherever you wish, talk to whomever you want, to discover why some of America’s most promising young people sacrifice so much to become cadets. Lipsky followed one cadet class into mess halls, barracks, classrooms, bars, and training exercises, from arrival through graduation. By telling their stories, he also examines the Academy as a reflection of our society: Are its principles of equality, patriotism, and honor quaint anachronisms or is it still, as Theodore Roosevelt called it, the most “absolutely American” institution? During an eventful four years in West Point’s history, Lipsky witnesses the arrival of TVs and phones in dorm rooms, the end of hazing, and innumerable other shifts in policy and practice. He uncovers previously unreported scandals and poignantly evokes the aftermath of September 11, when cadets must prepare to become officers in wartime. Lipsky also meets some

extraordinary people: a former Eagle Scout who struggles with every facet of the program, from classwork to marching; a foul-mouthed party animal who hates the military and came to West Point to play football; a farm-raised kid who seems to be the perfect soldier, despite his affection for the early work of Georgia O'Keeffe; and an exquisitely turned-out female cadet who aspires to "a career in hair and nails" after the Army. The result is, in the words of David Brooks in the New York Times Book Review, "a superb description of modern military culture, and one of the most gripping accounts of university life I have read. . . . How teenagers get turned into leaders is not a simple story, but it is wonderfully told in this book."

Kettlebell Conjugate V2 Douglas Seamans, 2021-08-23 This program is my brain child after completing Gregor's original conjugate program and wanting to write a program that was more long cycle specific, and wanting to double the length of the program and add some volume. I also wanted to add in some more strength and conditioning work. All of the information in this program and it's design, is the culmination of training under multiple coaches, competing at three IUKL world championships and multiple national championships in America and Canada as well as European championships. I am an advocate for learning from as many people as possible, and this program uses information and methods learned from not only Gregor Sobocan, but all of my coaches, as well as methods and theories developed by Louie Simmons of Westside Barbell, and a few tricks we developed at our gym Pride Conditioning. I truly hope you enjoy this program and I am confident you will have fun with it! This program is challenging but doable, and it is great for intermediate and advanced lifters looking for a different format in their off-season training. ATTENTION: If you do not know how to use a kettlebell, how to squat, how to deadlift, how to do a clean and jerk on a barbell or with a kettlebell, and if you have never competed in a kettlebell lifting competition this book is NOT for you! This is not a how to lift kettlebells book, this is a program for intermediate to advanced lifters. And I highly recommend you complete Coach Gregor's original conjugate program first before attempting this program!

Gospel Wilton Barnhardt, 1995-02-15 The search is on for a lost first-century gospel of the Bible, a document that could shake the foundations of Christianity. The narrative races through dozens of locales as a theologian and an ex-priest pursue rumors and clues about the gospel. In the end, what they discover will challenge and forever change the nature of faith.

Counterinsurgency in Modern Warfare Daniel Marston, Carter Malkasian, 2011-01-01 Throughout history armies of occupation and civil power have been faced with the challenges of insurgency. British and American involvement in Iraq and Afghanistan has highlighted this form of conflict in the modern world. Armies have had to adopt new doctrines and tactics to deal with the problems of insurgency and diverse counterinsurgency strategies have been developed. Here, fourteen authors examine the development of counterinsurgency from the early 20th century to the present. Including information on the Arab-Israeli conflict, Afghanistan and Iraq this book is a timely and accessible survey of a critical facet of modern warfare. This new paperback edition features a revised introduction, updated chapters on Iraq and Afghanistan and a completely new chapter on Columbia by expert Thomas Marks.

Non-Formal Education Alan Rogers, 2007-03-06 The Comparative Education Research Centre (CERC) at the University of Hong Kong is proud and privileged to present this book in its series CERC Studies in Comparative Education. Alan Rogers is a distinguished figure in the field of non-formal education, and brings to this volume more than three decades of experience. The book is a masterly account, which will be seen as a milestone in the literature. It is based on the one hand on an exhaustive review of the literature, and on the other hand on extensive practical experience in all parts of the world. It is a truly comparative work, which fits admirably into the series. Much of the thrust of Rogers' work is an analysis not only of the significance of non-formal education but also of the reasons for changing fashions in the development community. Confronting a major question at the outset, Rogers ask why the terminology of non-formal education, which was so much in vogue in the 1970s and 1980s, practically disappeared from the mainstream discourse in the 1990s and initial years of the present century. Much of the book is therefore about paradigms in the domain of development studies, and about the ways that fashions may gloss over substance.
